Hello,I,m Tushar Deshmukh, and I am a dedicated data science professional with a passion for solving complex problems through innovative applications of machine learning and deep learning. I recently completed my Master of Computer Application (MCA) from Sinhgad Institute of Management, Pune University, where I maintained a commendable CGPA of 8.12 (75.29%).

I bring extensive hands-on experience with Python, where I've utilized various libraries for data analysis. My expertise extends to exploratory analysis, where I've applied my knowledge to extract meaningful patterns and identify crucial trends and relationships within data sets.

I am well-versed in various Python packages, including Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Tensorflow, and Keras. My machine learning repertoire includes proficiency in Linear Regression, Logistic Regression, K-Nearest Neighbors, Support Vector Machines (SVM), Decision Trees, Random Forest, XgBoost, and K-Means Clustering. Furthermore, my expertise extends to deep learning techniques such as Convolutional Neural Networks (CNNs), Recurrent Neural Networks (RNNs), and Artificial Neural Networks (ANN).

I am excited about the opportunity to contribute my skills and knowledge to impactful projects, and I am confident in my ability to make significant contributions to any organization.

Thank you for considering my application.
